Science on the Grand

July 11-12, 2022
Grand Rapids, MI

A STEAM Conference for Inquiry-based Educators

You will grow. You will learn. You will be inspired!

We know teachers have the most important job in the world; that's why we support the whole teacher! Science on the Grand was designed by experts and current classroom teachers to provide research-based and classroom-tested content that supports **your** classroom expectations, **your** content standards, and **you** as a person. We know 2021 was rough, so treat yourself to a conference that will not only prepare you for 2022 with innovative instructional tips and strategies, but will treat you like royalty and show you some fun along the way.

You deserve it!

- Establish a classroom culture to support STEAM instruction
- Explore standards-aligned lessons by grade level with STEAM integration
- Network with like-minded educators in your grade and interest area
- Nurture your own curiosity and personal growth
- Celebrate the amazing work you do!

Registration includes:

- Two days of action planning, inspiration, exploration, and practical takeaways
- Opportunities to network with like-minded teachers
- Breakfast, lunch, snacks, and VIP treatment — YOU deserve it!

**\$100 per person
until May 15th***
**Plus, Principals can
attend for free!**

With a paid staff registration.

With Keynote Speaker:
Erin Gruwell

Educator and New York Times
best-selling author of
The Freedom Diaries
